

2312/GA Pro Enforcer Mid Boot

POLICE & MILITARY

- Operational uniform boot suitable for law enforcement units and for civil protection operators
- Extremely lightweight and comfortable for long-day usage
- Good stability and excellent grip for walking and running on uneven grounds
- Upper fabric 100% PA warp-knitted coupled with perforated microfiber to ensure a good stability and a good overall breathability
- Lining GORE-TEX® PEARL excellent for moderate and warmer condition and during higher activity levels
- Excellent breathability upper and lining (800% higher than the European Standard EN ISO 20347 5.4.6)
- Speed-lacing system using textured PES tapes with added nylon and lace fixing points; the system is completed by a handy plastic lace lock
- High performance outsole made of a special nitrile rubber, resistant to heat and fuel oil, antistatic, SRC slip resistance with high abrasion resistance
- Soft PU midsole that provides a shock absorbing effect
- Textile anti-perforation insole: it offers high resistance to penetration and also provides flexibility to the footwear, heat insulation, moisture absorption
- Anatomically shaped footbed designed to increase the comfort of the foot morphology
- Heat insulation is 50% higher than the European Standard EN ISO 20347 6.2.3.1
- Cold insulation is 50% higher than the European Standard EN ISO 20347 6.2.3.2
- The energy absorption is 50% higher than the European Standard EN ISO 20347 6.2.4

Product name: Pro Enforcer Mid Boot

Article code: 2312/GA

Upper

PA Cordura® fabric, water repellent, black, coupled with perforated microfiber to ensure stability and breathability.

The upper is completed by two lateral abrasion resistant light microfiber overlays and a weave of polyurethane material bands.

The footwear features viscoelastic polyurethane foam malleolar padding that maintains its original shape over time.

Tongue and bellow

Cordura® PA fabric, coupled with a lightweight felt, water-repellent and black. The tongue is padded with a high-density cross-linked polyurethane foam that provides both comfort and high breathability.

Lining

Seam sealed 3-ply laminated (GORE-TEX® PEARL) bootie construction:

Layer 1: Warp knit 70% PA / 30% PES

Layer 2: Waterproof and water vapour permeable ePTFE

Layer 3: backing fabric knit 100%

Toe Cap

Extruded polyurethane and synthetic fibres impregnated with thermo-adhesive resins with a thickness of 1.35 mm.

Heel Cap

1,50mm resin bonded synthetic fabric, thermally mouldable, glued to upper material

Heel

Suede microfiber black colour, thickness mm 1,0. Rear loop for an easy pull-on.

Lacing system

3 pairs of tapes at the bottom of the upper, a couple of lace locks in central position and 3 pairs of speed-laces at the top of the upper.

Plastic clamp to fix the laces and lace-pocket in the upper part of the tongue to store them.

The tapes are made of textured PES added with nylon so that the material is elastic and resistant. The eyelets are made of zamak material to avoid oxidation problems.

Sewing thread

Water-repellent treated polyester 30/3 yarn, black.

Lacets

Round, 100%, recycled polyester, water repellent treated, black.

Footbed

Pre-shaped footbed, designed to give a shock-absorber effect in the central area of the sole, inner side and heel.

The Upper covering fabric assure a good abrasion resistance.

The base is made of highly breathable, open cell polyurethane foam that does not lose its shape, is lightweight and absorbs and desorbs sweat easily.

Anti-perforation insole

Average 4,00 mm thick, anti-perforation insole, made by 100% PES fabric, perforation resistance type Y at 1100 N according to the European Standard EN 22568-4:2019

Sole

Bi-component cemented sole with a PU midsole combined with a nitrile rubber tread, oil and petrol resistance, slip resistance SRC, heat resistance at 300° antistatic, high abrasion resistance.

The particular structure of the tread gives stability on uneven grounds.

Weight/pair

Ca. 1050 g (size 42)

Back height

Ca. 16 cm (sole included) (size 42)

CE Certificate

EN ISO 20347:2012 O3 HI CI HRO WR FO SRC

Category II P.P.E

Size range

EU 36 – 49
