- Genuine leather sole with TPU tread, highly resistant to abrasion and to fuel oil
- Antistatic properties

Product name: PARADE 2.0

Article number: 640/A

Upper

Full grain cow leather, water-repellent and breathable, black color, 1.4-1.6 mm thick, chrome tanned and aniline dyed.

Lining

Goat leather, soft and breathable, pearly beige color, 0.6-0.8 mm thick.

Toe cap

Elastic thermoplastic fabric.

Heel cap

Regenerated leather impregnated with heat settings resins.

Sewing thread

High tensile filament polyester yarn, title 60, black color.

Insole

Synthetic fibers impregnated with heat setting resins, with metallic shank and rear reinforcement.

Insock

Natural goat leather, with an insert of synthetic SBR latex foam, 4.0 mm thick.

Sole

Genuine leather midsole to which a half sole made of special antistatic and fuel oil resistant TPU is glued. The 60 mm heel is made of thermoplastic polyurethane with high impact resistance and is completed by a TPU tread. The sole provides antistatic as well as non-slip properties.

Weight/pair

Ca. 480 g (size 37)
