

6720/GA STEALTH BOOT 2.0

POLICE & MILITARY

- Lightweight boot for Civil Protection and Police
- Good stability for both walking and running
- Lining: Gore-Tex® Extended Comfort Footwear, excellent for temperate and hot climate
- Extremely breathable, thanks to the combination of leather and fabric parts
- Extremely comfortable for long-day usage
- Highly performing nitrilic rubber outsole, resistant to fuel oil and heat contact, antistatic, SRC slip-resistant, high-wear resistant
- The heat insulation is 50% higher than the European Standard EN ISO 20347 6.2.3.1 requirements
- Excellent grip on uneven grounds (the outsole is 40% more durable than the European Standard EN ISO 20347 5.8.3 requirements)
- The sole bonding strength is 40% higher than the European Standard EN ISO 20347 5.3.1.2 requirements
- The energy absorption in the heel area is 120% higher than the European Standard EN ISO 20347 6.2.4 requirements
- Optional Fast lacing system, with zipper supplied separately

Product name: STEALTH BOOT 2.0

Article number: 6720/GA

Upper material

Full-grain breathable cowhide leather, waterproofed, black, 1.8 - 2.0 mm thick combined with inserts of Cordura® nylon, breathable and water-repellent treated.

Collar

Soft full-grain cowhide leather, water-repellent, black, thickness 1.1 / 1.2, padded with cross-linked PU for better comfort.

Tongue and bellows

Black water-repellent Cordura® fabric coupled with a light water-repellent felt to guarantee resistance, flexibility and breathability.

Lining

Seam sealed 3-ply laminate (GORE-TEX® PEARL) bootie construction:

Layer 1 - Abrasion-proof lining 70%PA - 30%PES

Layer 2 - Waterproof and water vapour permeable ePFTE membrane

Layer 3 - Backing fabric knit 100% PA

Toe cap

1.0 mm resinated synthetic bonded fabric, thermally mouldable.

Heel cap

1.8 mm resinated synthetic bonded fabric, thermally mouldable.

Zip (optional)

Made with the same leather of the upper, with metal slider and plastic teeth and joined to the shoe through eyelets.

Lacing system

The lacing system consists of 10 couples of eyelets made of burnished brass, rustproof, with a diameter of 5 mm.

Sewing thread

Polyester thread, 20/3 title, water-repellent treated, black

Laces

Round laces, black, polyester water-repellent treated

Foot-bed

Anatomically shaped with an upper covering made of anti-abrasion non woven material 100% PL, high-wear resistant and with good moisture transmitting.

The base is made of 100% highly breathable, lightweight, shape-retaining open cell polyurethane foam that easily absorbs and desorbs sweat.

Antiperforation insole

Antiperforation insole made of a PP shell combined with 100% PES textile material with an average thickness of 4.00 mm, resistant to penetration type Y at 1100 N according to the EN 22568-4: 2019 standard.

Outsole

Bicomponent mounted sole, with single-density PU midsole and tread in nitrile rubber resistant to oils and hydrocarbons, SRC anti-slip, heat resistant to 300 ° C, antistatic and high-wear resistance.

The tread is designed to adapt to a wide variety of terrains. The side profile includes protective pads for the fast-rope.

Weight/pair

Abt. 1370 g (size 42)

Back height

Abt. 21,5 cm (sole included) (size 42)

CE Certificate

EN ISO 20347:2012 O3 HI HRO WR FO SRC

Category II P.P.E.

Size range:

EU 36 – 49
